IN THE CLAIMS

In claim 11, line 9, after "freely rise" deleted "or fall".

In claim 11, line 10, after "said body of water" inserted --and freely fall after a wave passes by means of said slidable frame sections--.

Cancelled claim 24.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the SPECIFICATION

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Regarding claim 11, the closest prior art of record, Geist ((4,003,137) discloses an articulated floating barrier 10 comprising first and second support members 18,19 constructed of rigid elements adapted to be positioned on a floor of a waterbody. The articulated floating barrier comprises a curtain 13 between first and second support members at least partially within the vertical extent of the support members wherein the support members allow the curtain to freely rise and fall in response to wave motion of the waterbody (see abstract and Fig. 1). However, Geist fails to disclose that each support member includes a top frame section that longitudinally slides on a bottom frame section such that the support members allow the curtain to freely rise on response to a wave and freely fall after a wave passes in combination with the rest of the limitations provided in claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
